## Safety and Style: Upgrading to Modern Cladding Standards

We're proud to announce that our cladding is crafted with fully compliant, non-combustible materials that meet modern safety regulations. This upgrade not only ensures the highest safety standards for residents but also enhances the building's appearance, offering peace of mind and a fresh, attractive finish.

## Building Homes, Creating Jobs for Gravesham

Our residential construction project here in Gravesham is more than just building homes; it's about building a stronger local community. By creating quality homes, we're providing spaces where local families can thrive. This project supports local employment, with many jobs going to skilled tradespeople and businesses right here in Gravesend. Supporting local workforce, our team proudly includes 10 Gravesham residents, ranging from site managers to labourers. Together, we're investing in a brighter future for Gravesham.

## Closing in on Structural Completion: Multi-Storey Car Park Progress

Following a successful concrete pour, we've now completed the penultimate stairwell and ramp of the multi-storey car park. This milestone brings us to the final stretch of the structural work, marking significant progress toward completing this key component of the project.
